

MARLON B. SIQUEIRA

Finance Transformation Manager · SAP S/4HANA · Intelligent Automation · Advanced Analytics · SSC / GBS

Porto, Portugal | +351 938 567 334 | marlonbsiqueira@gmail.com | linkedin.com/in/marlonbsiqueira | marlonbsiqueira.github.io/marlonbsiqueira | EU Citizen (Brazilian & Italian)

EXECUTIVE SUMMARY

Finance Transformation Manager with 12+ years of international experience across Portugal, Ireland and Brazil, specialising in end-to-end programme delivery within complex multinational SSC/GBS environments. Operates at the intersection of SAP S/4HANA process transformation, intelligent automation and advanced analytics — translating enterprise-wide business challenges into governed, scalable solutions with measurable impact.

Recognised for bridging finance, IT, operations and senior stakeholders across multi-entity, cross-border environments — owning programmes from diagnostic through design, build, UAT, adoption and capability transfer. Sustains impact through structured governance, rigorous documentation and targeted upskilling.

Programme Delivery: End-to-End Programme Ownership · Stakeholder Management & Advisory · Change Management & Adoption · Cross-Functional Facilitation · Governance & Capability Transfer

AI & Productivity: Microsoft Copilot · Generative AI (Applied) · AI-Augmented Analytics & Automation · Prompt Design for Business Workflows · Lean Six Sigma Black Belt · Process Re-Engineering · Kaizen

PROFESSIONAL EXPERIENCE

Senior Finance & Digital Transformation Specialist

STELLANTIS — Shared Services Centre of Excellence | Porto, Portugal | September 2020 – Present

SAP S/4HANA Transformation & Process Excellence

- ▶ Led SAP S/4HANA Finance Transformation (R2R, P2P, OTC) across 15+ European entities in a multi-entity SSC/GBS environment — drove full UAT cycles, delivered 25+ post-go-live improvements and reduced process cycle times by 10–20%.
- ▶ Applied Lean Six Sigma to eliminate 30+ process bottlenecks across the European SSC — standardised cross-functional handoffs and strengthened financial control frameworks at scale.

Intelligent Automation, Analytics & AI

- ▶ Architected and delivered 20+ automation solutions (RPA, VBA, Power Platform) across Finance and Operations — achieving ~9 FTE personal efficiency contribution, 35–50% reduction in manual workload and ~18 FTE total team portfolio impact.
- ▶ Engineered a 200,000+ automated communications programme across multiple EU countries for a critical legal and tax transition — GDPR-compliant, fully auditable and delivered with zero operational disruption.
- ▶ Designed 15+ executive Power BI dashboards with advanced DAX for 70+ senior leaders — improved KPI visibility by 40–50% and accelerated financial close from 8 to 6 days.
- ▶ Delivered €200K+ in cumulative productivity savings through enterprise-wide process re-engineering and automation.
- ▶ Rebuilt a critical legacy operational system in under 2 weeks — adopted by 30–40 users across multiple European regions, eliminating a key single point of failure.
- ▶ Embedded Microsoft Copilot and Generative AI into transformation delivery workflows — accelerating automation design, DAX development, process documentation and executive communications.

Capability Building & Organisational Development

- ▶ Led as Squad Team Leader (2023–2025) — co-designed and delivered a cross-European development programme featuring Porto Business School, MIGSO-PCUBED and University of Porto faculty; 100+ in-person attendees per session.
- ▶ Upskilled 20+ finance professionals across the SSC/GBS — reducing external consultant dependency and building durable in-house automation capability.

Finance Manager

FYI DIGITAL INNOVATION | Porto, Portugal | Sep 2019 – Aug 2020

- ▶ Built end-to-end AP/AR processes, cash flow forecasting and a financial control framework from the ground up — improving cash conversion cycle by 15 days and reducing DSO by 20%.
- ▶ Recovered ~€18K in outstanding receivables and eliminated recurring banking penalties through disciplined liquidity planning and proactive creditor management.
- ▶ Cut audit preparation time by 50–60%, achieved clean findings, and developed a team of 4 finance professionals.

Financial Analyst

FUNDAÇÃO RENOVA | Belo Horizonte, Brazil | Jun 2018 – Jul 2019

- ▶ Managed budget tracking, forecasting and variance analysis across an R\$11B+ annual portfolio spanning 40+ cost centres under high public accountability and regulatory scrutiny.
- ▶ Implemented SAP procurement controls and automated reporting tools — reducing manual reporting time by 40–60% and rework by 50%.

VAT Analyst

MERIDIAN GLOBAL SERVICES | Dublin, Ireland | *May 2017 – May 2018*

- ▶ Managed VAT compliance and reclaim across 30+ EU jurisdictions for 15+ multinational clients — delivered a 100% audit success rate with zero adjustments across all engagements.
- ▶ Developed deep EU indirect tax advisory expertise through cross-border transaction analysis and structured client support, including major technology multinationals.

Senior Cost & Budget Analyst

ALE COMBUSTÍVEIS | Belo Horizonte, Brazil | *Jun 2014 – Nov 2016*

- ▶ Built end-to-end cost models across 40+ national fuel distribution bases, supporting strategic pricing on multi-billion-litre annual volumes — incorporating ICMS, logistics, storage and procurement variables.
- ▶ Created the company's first structured historical cost database — identified a zero-margin operation in southern Brazil and enabled ~20–30% storage cost reduction through imported fuel strategy analysis.
- ▶ Delivered 15–20% expense reduction across 5 business units through data-driven cost optimisation and commercial scenario modelling.
